

GENETIC ENGINEERING OF STEM CELLS

Genetic correction of Wiskott-Aldrich syndrome

CHRISTOPH KLEIN, MD, PHD

*Department of Pediatric Hematology/Oncology
University of Hannover, Hannover, Germany*

Genome-wide studies of retroviral vector integration

FREDERIC D. BUSHMAN, PHD

*Department of Microbiology
University of Pennsylvania
Philadelphia, PA*

Globin gene transfer to treat β -thalassemia

FARID BOULAD, MD

Department of Pediatrics, MSKCC

Genomic safe harbors

EIRINI P. PAPAPETROU, MD, PHD

Center for Cell Engineering, MSKCC

Meganucleases and genome surgery

FREDERIC PAQUES, PHD

*Chief Scientific Officer
Cellestis, France*

Gene Targeting with Adeno-Associated Virus Vectors

DAVID RUSSELL, MD, PHD

*Division of Hematology
University of Washington School of Medicine*

THURSDAY, JANUARY 13, 2011

HOFFMANN AUDITORIUM

2:30 PM TO 5:30 PM

REFRESHMENTS WILL BE SERVED AT 2:15 PM

MEMORIAL SLOAN-KETTERING CANCER CENTER

FOR ADDITIONAL INFORMATION, CONTACT 212-639-6190
